Disposable Sampling Kit

individual package

big package

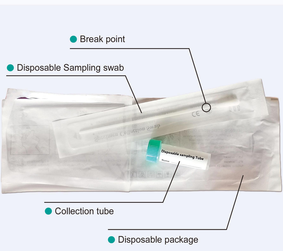
[Product Name] Disposable Sampling Kit

[Components] Sampling swab（CE approved）, collection tube containing 3 mL preservative cocktails

[Manufacturer] GUANGDONG ARDENT BIOMED CO., Ltd.

[A d d r e s s] 4th floor of C1 Building,No.11Kaiyuan Road Science City High-tech Industrial Development District, Guangzhou City Guangdong 510530, China

[Certificate Number of Product Filing] 粤穗械备20200103号



Convenient
Quick and easy to handle

Safe
Efficiently inactivate pathogens

Clean
All components are sterilized

Stable
Preserve pathogens intact

Lasting
Samples stable at room temperature for 7 days

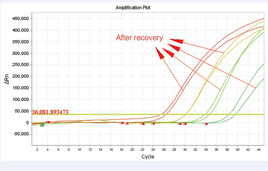
Efficiency
No guanidinium or other compound that may interfere with nucleic acid extraction or PCR amplification is included

individual package

big package（50 test/kit）

Excellent Sample Preservation

85% of nucleic acid recovery rate from preserved samples



Guide
